HOW CAN THE ROMANIAN-CANADIAN MBA CHANGE YOUR CAREER?

Ever wondered how can an MBA program change the direction of your career and if the title itself is really that important?

Here is how the Romanian-Canadian MBA Program can positively contribute to your career development. The title itself is just a small part of the benefits, the proverbial tip of the iceberg. See the real benefits of attending our program and prepare for a major career boost.

From our periodic Alumni get-togethers here are the major benefits that we found in the graduate feedback and testimonials:

• Extremely valuable knowledge, with extremely fast implementation in the day to day activity, acquired during the program;
• Finding a better job in strong companies through the international Alumni network and obtaining valuable recommendations, tips and support;
• Instant promotion and implementation of the newly acquired knowledge in the new position;
• Income increase and better benefits;
• Connection with graduates in various business sectors and countries;
• Higher responsibility and the confidence to assume and handle it;
• Building strong relations in study groups and developing new long lasting friendships;
• Doing the graduation project on real life companies and situation;
• Getting valuable career advice from professors and colleagues.
**PROGRAM OVERVIEW**

**On campus classes** will be held in a **part time manner**, two weekends or one week per month. The exact days will be nominated for each module depending on the subject, teacher or events programmed in the calendar (holidays, season breaks).

Apart from classes, students will work in **study groups** for various projects, all the necessary equipment and the study rooms **will be provided**.

The MBA library is opened for students and books are available for reading or loaning with a generous returning policy (usually one month but can be extended on request).

The program includes 15 classes and a final project, that will allow the students to accommodate with the MBA teaching style and to acquire extremely valuable knowledge:

1. Management Skills & Organizational Behavior;
2. The World of the General Manager & Strategic Management;
3. Managerial Data Analysis;
4. Marketing Management;
5. Managerial Micro & Macroeconomics;
6. International Business;
7. Financial & Managerial Accounting;
8. Managerial Finance;
9. Operations & Supply Chain Management;
10. Managing Human Resources;
11. Project Management;
12. Strategic Management of Information Technology;
13. Strategy Formulation & Implementation;
14. Business Simulation;
